Summary

Flutter Developer with 1+ year of experience building and shipping production-grade mobile apps using Flutter, Clean Architecture, and Bloc. Delivered multiple apps to the App Store, Google Play and TestFlight, including multi-role education and employee platforms, an AI-powered SaaS product, and client apps. Experienced with REST APIs, offline-first systems, AI integrations, and end-to-end iOS & Android release workflows.

Work Experience

Flutter Developer

Nov 2025 – Present

BDC Business Services

Cairo, Egypt

- **Delivered 3 mobile apps** across production and TestFlight, including **El Madrasah**, **PersonaRise**, and **Makkah College**, owning iOS provisioning, signing, and distribution workflows.
- **Architected** a scalable large-scale ERP system spanning 40+ screens and 8+ role-based access tiers with dynamic routing and modular feature isolation using Clean Architecture and Bloc.
- **Engineered** robust integration of 60+ RESTful endpoints with centralized error handling, JWT token refresh, retry logic, and offline-first caching for resilient network behavior.

Freelance Flutter Developer

Client projects

- **Built** client apps from scratch as a solo developer, from requirements to release, owning architecture, UI, APIs and store releases under my own developer account, including **AI-Burda** and **FLEXI**.

Skills

Languages: Dart, Python, SQL, JSON

Framework: Flutter (iOS, Android)

Architecture: Clean Architecture, MVVM, OOP, SOLID

State: Bloc, Cubit, Provider

Backend: Firebase, REST APIs, FCM, WebSockets

Storage: Hive, Drift, Shared Preferences

Integrations: Stripe, PayPal, Google Maps

Testing: Bloc Test, Mockito, TestFlight

Tools: Git, GitHub, Android Studio, VS Code

AI Tools: Claude Code (Advanced), Codex

Soft Skills: Analytical, Innovative, Collaborative

Education

B.Sc. Computer Science

Jul 2023

Higher Technological Institute (HTI)

GPA: 3.22

Training & Certifications

Senior Steps Academy

- Flutter Advanced Mobile Development – 2023
- Front-end Development Diploma – 2022
- Flutter Cross Mobile Diploma – 2021

- Flutter Advanced: Bloc & MVVM ☞
- Clean Architecture in Flutter ☞
- Payment Integration: Stripe & PayPal ☞
- Flutter: Google Maps Integration Guide ☞
- Flutter & Firebase: Build E-Commerce App ☞

Projects

El Madrasah 🍏 ▶

Flutter, PowerSync, Bloc, ElevenLabs AI | Built at BDC

Built offline-first sync with PowerSync, real-time bus tracking, and ElevenLabs AI tutoring; shipped live to the App Store & Google Play.

AI-Burda 🍏 ▶

Flutter, Clean Architecture, Bloc, WidgetKit | Client project

Shipped an Arabic (RTL) app to the App Store & Google Play with a reminder engine, iOS Lock-Screen widgets, and interactive notification cards.

FLEXI 🍏

Flutter, Clean Architecture, Bloc, REST APIs | Client project

Developed an employee management app with role-based access, location-verified attendance, QR check-in, leave and permission requests, shift tracking, payroll documents, and notifications.

PersonaRise

Flutter, AI, SaaS, REST APIs | Built at BDC

Built an AI-powered personal branding platform that analyzes professional identity and generates personalized content for automated publishing on LinkedIn and X; distributed through TestFlight.

Makkah College

React Native, TypeScript, REST APIs | Built at BDC

Developed a higher-education platform for university students and staff, implementing role-based features, academic services, and real-time communication; distributed through TestFlight.
